

Maths at Hall Meadow

Power Maths

'Maths is an adventure for children (and adults) to be immersed in, get creative with, make mistakes, and conquer!'

To support our teaching of Maths, we follow the Power Maths Programme

'Power Maths is a whole-class mastery programme designed to spark curiosity and excitement and help you nurture confidence in maths. The only mastery programme created in partnership with White Rose Maths, it's written specifically for UK curriculum by leading mastery experts, and comes recommended by the UK's Department for Education (DfE).'

The programme is structured to teach children the different concepts through a range of processes that allow them to fully understand and apply their knowledge. Areas are taught in blocks with each block being broken down into small steps to build upon prior knowledge and develop their thinking.

To further support the learning, children have access to Maths Jam and Maths Flex which they can also use at home as part of their weekly homework.

TT Rockstars

Multiplication is a key skill in Maths. Children are taught various methods to support their understanding in class but also have access to TT Rockstars to further develop their knowledge and recall in a fun and interactive way that is accessible both in school and at home.
